Scope (impact on/control of resources, people, money etc)

Our Service users are made up of: elderly frail and disabled (the majority); adults with mental health, learning or physical disabilities and, in selected cases, children.

The profile of these services is as high as any in the Council. The sensitivity and the complex issues being dealt with in human terms are enormous. The public expectation of high quality services is great.

Reablement Practitioners mainly work alone without immediate access to a supervisor on site, they work in a range of environments, travel times can often be high and they are frequently required to make decisions on behalf of service users based on their own judgement. WBC policies and procedures, training provided, NVQ2 and operational handbook will provide a level of competence and knowledge.
