

# Role profile

Here's more about the job!

<b>Role/s</b>	Senior Practitioner (Technology Enabled Care)	<b>Date Prepared</b>	September 2021
---------------	---	----------------------	----------------

## Your Team

- We are responsible for assessment and social care interventions to ensure positive outcomes for people in compliance with health and social care legislation. We talk with people to find out what matters most to them, their strengths and what they want to achieve and build these into their personalised care and support plans

## Your Customers

- People with care and support needs, carers and significant others
- Staff within the Council
- Commissioned providers
- Staff from other agencies, including NHS, Housing, VCS and others as appropriate

## Your Role

- Social Work/OT/Nursing qualification and HCPC/SWE/NMC registration.
- Key interface for TEC on behalf of the CAS Team and the Council, driving collaboration with both internal and external colleagues to enhance CBC TEC service offering and delivery.
- Evaluate monthly TEC performance data to effectively manage clinical effectiveness including quality assurance, resources, and efficiency savings.
- Management of the TEC catalogue through regular evaluation and product performance reviews, selecting new TEC solutions where appropriate.
- Promote and develop the TEC service through training workshops and management of broader TEC related communications.

## Health and Safety

- Working alone.
- Visual display - regular use.
- Risk of verbal abuse.
- Risk of physical assault.
- Regular exposure to mental health pressures and demands.

## Work Pattern

- Standard Monday to Friday with flexibility subject to business needs.

## Work Related Travel

- Regular.
